

UPDATE - 05.08.2025 SB 141-FN - Representative Alexander did a floor amendment to SB 141 to add in the wording from 666 about expanding library cards and membership to RSA 201 D:11 today. There is no penalty portion.

The effect of this is that this bill now further expands the confidentiality of the library user records to include library card ownership and membership status. This bill has passed in this chamber.

We will be implementing an Informed Consent for all individuals that share a Library Card - this includes parents, children, babysitters, au pairs, grandparents, spouses and others in order to maintain compliance with the amended RSA 201 D:11.
