

09.26.2025 - We've gotten a few questions about why we are migrating to a circulation system and catalog.

Why is the library changing systems? There are a few reasons -

- Once you're logged into your library account, the new system (called Aspen) will allow you to borrow from all of our resources directly from our catalog. This includes our online resources too (Hoopla, Libby, & Kanopy) - as long as you have already established your online credentials with these products.
- The new system has a catalog app for your convenience, called Aspen LiDA, available in both android and apple app stores - the entire library in the palm of your hand.
- The new system allows the library to explore expanding our boundaries and how we interact with other libraries around us. This future planning is critical to meeting our community's needs.
